2. [REDACTED]

25X1A

In reference to my memorandum of 3 September 1964 concerning [REDACTED] arranged to brief Congressman Robert Wilson of California. Congressman Wilson was appreciative of the briefing and advised that he was not interested in any classified information. He did say that he would like for GSA to advise him as to why they selected [REDACTED] for the negotiated contract. I tried to contact Robert Daly, PBS, and when I do, I will suggest to him that he respond to Congressman Wilson since the contract selection was a GSA action.

4. Office of Logistics - [REDACTED] (2 September 1964)

25X1A9a

[REDACTED] and J [REDACTED] were to meet with me this afternoon to discuss the transfer of [REDACTED] back to the Office of Logistics. [REDACTED] failed to show, but the essence of the problem is that OSA has a heavy commitment to have the ships operational by 1 November. This is a high priority requirement and full pressure is on to meet it. [REDACTED] stated that [REDACTED] two military deputies have just left and, at the moment, he is really without any assistance. It is presumed that two military deputies will be coming in. Jack had no answer when I questioned why the deputies left at the same time. The point of the conversation was that [REDACTED] wants to keep [REDACTED] certainly through 1 November 1964 in order to meet their operational requirement. They think that [REDACTED] just cannot pick up the intricacies of the job within that time even though he joins [REDACTED] in the next several weeks. I gather that [REDACTED] wants to extend [REDACTED] beyond 1 November and possibly for some length of time. Unless they have some unforeseen arguments, I fail to see the logic of their proposal, except that they like [REDACTED] We are to meet again in the next several days.
